

Past, Present & Future: Liverpool City Council & Sentinel Partners Improving Lives Through Trusted Data Insights

Helena Zaum | helena.zaum@sentinelpartners.co.uk

15th October 24

Agenda

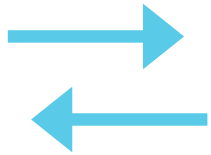

- Sentinel Partners – who we are and what we do
- What our platform is used for
- The Liverpool City Council Story – Past, Present and Future

Improving lives through trusted data insights

What we **do**

We help public sector organisations get faster value from their data, and data from their agency partners

We get your data ready for your AI journey

We have deep industry specialism around highly sensitive use cases and information governance

Example Use Cases

Predicting looked after children
Predicting perpetrators of domestic abuse
Identifying financial & other vulnerabilities
Multi-agency safeguarding/MASH
Supporting Families 3
Family Hubs & Pathfinder

Identifying unpaid carers & likely breakdown
Prioritizing those waiting for assessments
Preventing escalations e.g. falls
Single view of care tech devices
Anticipating provider quality & financial risk
Coordinated hospital discharge
Population health management & public health

Single view of debt & financial recovery
Single view of assets
Smart cities – e.g. interplay between air quality & public transport planning
Understanding business needs & trends
Anticipating voids, repairs etc for housing
Anticipating future needs e.g. for housing, schooling etc
